

We'll save
your time for
you

No more
disruption,
No more
unwanted
scam calls

Tom Maguire, Dan Patrazza, Devin O'Grady, Jonathan Rezendes
Advisor: John Ela

Miticall is a smart-phone app designed to quickly scan through an interactive phone number database and instantly block unwanted scam calls from ever causing your phone to ring.

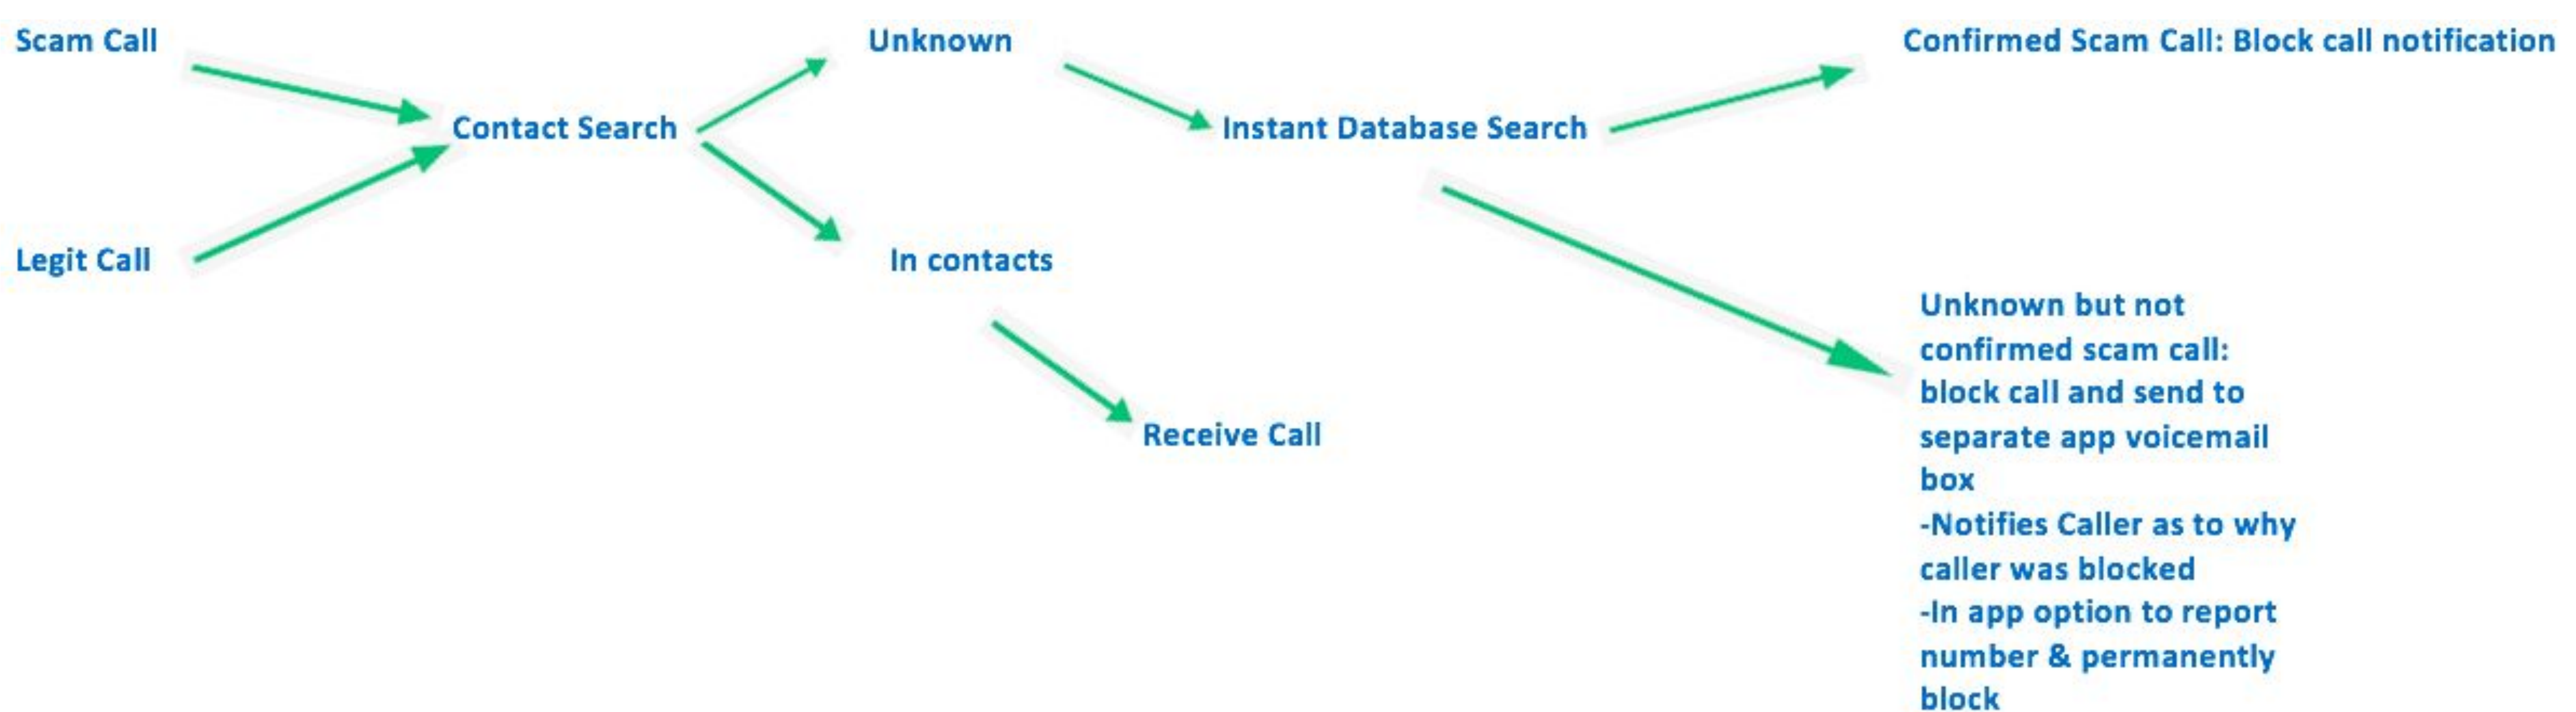

All with *little to no* user interaction.

Gains Created for Customer

- Saving time to create more productive hours daily
- Provides the ability to focus throughout the day
- Protection of private information
- Ability to avoid scammers/robocalls

Pains Solved for Customer

- The annoyance from such calls is greatly minimized
- Cellular data is saved and higher cellular bills are reduced - minimal screen time required
- Relief from security compromises

Our Market

- All individuals that own a smartphone
- Estimated 2.5 billion smartphone users worldwide
- Ever increasing globalization of technology and smartphones

Financials

- Our Initial investment request is \$400,000.
- We project a net income of \$824,000 at the end of year 3.
- We plan to sell our app for \$10 in the App Store/Google Play
