

# Seacoast Business Owners and Operators!

Are you interested in connecting with other businesses to talk about engagement with watershed issues?

My name is Katri and I'd love to connect with you!

As a graduate student at UNH, I'm bringing together local Seacoast business owners and operators to discuss you and your businesses engagement with watershed issues (such as flooding, stormwater management, and water quality) in relation to the Great Bay Estuary and other coastal waterbodies.

## PARTICIPATION DETAILS

- If you are interested, please email me, Katri Gurney, at [katri.gurney@unh.edu](mailto:katri.gurney@unh.edu)
- The research study involves one-time participation in a 2-4 person discussion group for 60-90 minutes (UNH IRB study #IRB-FY2026-255). The session will be in-person (location TBD) and audio recorded.
- As a participant you would receive a \$50 gift card in recognition of your time and expertise.
- Date/time/location TBD dependent on participant availability and locality.
